TARGET AUDIENCE
This program is designed for practicing ophthalmologists working in comprehensive specialized practices, as well as ophthalmology residents and fellows.

PURPOSE STATEMENT
This one and a half day meeting is designed to present the latest developments in ophthalmic disorders and their management. It will include a wide range of topics relevant to clinical care and thus enable ophthalmologists to maintain or improve the knowledge, skills and professional performance needed to provide the best possible medical and surgical eye care for their patients.

EDUCATION CREDITS

CATEGORY 1
Creighton University Health Sciences Continuing Education designates this activity for a maximum of 12 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity. APA accepts AMA category 1 credits for the PRA from organizations accredited by ACCME.

NURSE CE
Creighton University Health Sciences Continuing Education designates this activity for 12 contact hours for nurses. Nurses should claim only the credit commensurate with the extent of their participation in this activity.

ACCREDITATION STATEMENT
In support of improving patient care, this activity has been planned and implemented by Creighton University Health Sciences Continuing Education and Nebraska Academy of Eye Physicians and Surgeons (NAEPS). Creighton University Health Sciences Continuing Education is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing center (ANCC) to provide continuing education for the health care team.

JULIE FALARDEAU, MD  
Oregon Health & Science University  
Dr. Falardeau received her medical degree from University of Montreal and completed her ophthalmology residency at the same institution. She subsequently did a fellowship in neuro-ophthalmology at the University of Iowa Hospital and Clinics. She returned to the University of Montreal for two years as an assistant professor of ophthalmology and then moved to Portland, Oregon. She is currently an associate professor of ophthalmology and works in the neuro-ophthalmology department at Casey Eye Institute. Dr. Falardeau is a board-certified ophthalmologist and is a member of the American Academy of Ophthalmology, as well as member of the North American Neuro-Ophthalmology Society. Her research interests include optic nerve imaging techniques and treatment of optic neuritis.

JESSE HIMEBAUGH, MD  
Midwest Eye Care, P.C.  
Dr. Himebaugh is a specialist in cataract surgery, corneal transplantation, external eye and corneal disease, LASIK and PRK surgery, and the medical and surgical treatment of eye disease. A native of Utah, Dr. Himebaugh received his bachelor’s degree in micro-biology from Brigham Young University and his medical degree from University of Texas Southwestern Medical Center. Dr. Himebaugh completed a one-year internship in internal medicine at the University of Utah and a three-year residency in ophthalmology at West Virginia University. He completed his formal medical training with a fellowship in cornea, external disease and refractive surgery at the Washington University School of Medicine. Dr. Himebaugh is board certified through the American Board of Ophthalmology.

SCOTT A LARSON, MD  
University of Iowa  
Dr. Larson is a faculty member and Professor in the Department of Ophthalmology and Visual Sciences at the University of Iowa. Scott Larson received his medical degree from Loma Linda University in 1998. He completed his residency and fellowship in Pediatric Ophthalmology and Strabismus at the University of Iowa. He spent nearly a decade as a faculty member at the University of Utah from (2003-2012) before returning to join the Department of Ophthalmology at the University of Iowa in 2012. Dr. Larson has been an advocate for education on the local, regional, national and international levels. He has developed online resources to aid practicing physicians, residents and fellows in the form of webinars, web sites, wiki sites and surgical videos. He won the University of Iowa Department of Ophthalmology Faculty Teacher of the Year award in 2014 and Medical Student Teaching Award in 2018. He received an American Association for Pediatric Ophthalmology and Strabismus Honor Award in 2018. In 2019, he was named the William E. Scott Chair for Pediatric Ophthalmology. He previously held the William E. Scott Professorship from 2016-2019.
BLISS O’BRYHIM, MD, PhD  
**Midwest Eye Care, P.C.**

Dr. Bliss O’Bryhim completed her fellowship in retinal disease and vitreoretinal surgery at Washington University in St. Louis. Dr. O’Bryhim received her medical degree from the University of Kansas School of Medicine. After obtaining her MD, she completed her ophthalmology training at Washington University in St. Louis/Barnes Jewish Consortium. Dr. O’Bryhim is interested in retinal vascular disorders from both a clinical and research perspective. She completed her doctoral thesis in 2013 in the laboratory of RC Andrew Symons, MBBS, PhD at the University of Kansas School of Medicine. Her research identified a gene related to susceptibility to retinopathy of prematurity using a murine disease model. As a clinical fellow in vitreoretinal surgery, Dr. O’Bryhim continued her major project on OCTA findings in pre-clinical Alzheimer’s Diseases. She recently completed her training and is currently a vitreoretinal surgeon at Midwest Eye Care, P.C. in Omaha, Nebraska.

KAROLINNE ROCHA, MD, PhD  
**Medical University of South Carolina**

Karolinne Maia Rocha, MD, PhD, is a subspecialist in cataract, cornea, and refractive surgery. Dr. Rocha has received awards and distinctions for excellence in ophthalmology, including the American Academy of Ophthalmology’s Achievement Award in 2012, the American Society of Cataract and Refractive Surgery Foundation Resident Excellence Award in 2012, and the Cleveland Clinic Lerner College of Medicine Teaching Excellence Recognition Award in 2013. Dr. Rocha is active in clinical research, and active in teaching at national and international ophthalmology conferences. Dr. Rocha completed her postdoctoral fellowship in cornea and refractive surgery at Cleveland Clinic in 2009. Her second postdoctoral fellowship was in cornea and refractive surgery at Emory University in 2010. Dr. Rocha received her medical degree from State University of Londrina in Paraná, Brazil in 2002 and completed training in ophthalmology at Federal University of São Paulo. Dr. Rocha completed her second ophthalmology residency at the Cole Eye Institute- Cleveland Clinic Foundation in Cleveland, Ohio. She joined the faculty of the Medical University of South Carolina/Storm Eye Institute in Charleston, South Carolina in 2014 and is currently the director of the cornea and refractive surgery division.

BRENT TIMPERLEY, MD  
**University of Nebraska Medical Center**

Dr. Brent Timperley is a Nebraska native, born in Lincoln. He completed medical school and his residency in ophthalmology at the University of Nebraska Medical Center. He then continued his studies in Ohio, where he completed his fellowship in cornea, external disease, and refractive surgery at Cleveland Clinic. Dr. Timperley is currently an Assistant Professor of Ophthalmology at the University of Nebraska Medical Center Truhlsen Eye Institute. Dr. Timperley’s professional interests include laser refractive surgery, cataract surgery including laser assisted surgery and premium lens implants and corneal transplantation.
INDER PAUL SINGH, MD
The Eye Centers of Racine & Kenosha
Dr. I. Paul Singh is the President of The Eye Centers of Racine & Kenosha, Ltd., founded in 1981 by his father, Dr. Kanwar A. Singh. He was a chief resident and completed his residency at Cook County Hospital – Division of Ophthalmology, and his internship at Michael Reese Hospital – Department of Medicine, both in Chicago, Illinois. He graduated from Finch University of Health Sciences/The Chicago Medical School in 1999. His undergraduate education was completed at Washington University in St. Louis, with a B.A. in Biology and Psychology. He completed his fellowship in Glaucoma at Duke University in July 2004 before returning to his hometown where he is currently in private practice.

Throughout his Ophthalmology career, Dr. Singh has been involved with clinical research and has published papers in several ophthalmology journals. He has also presented his research at various national meetings and universities around the world. He maintains a full-time research facility and is currently involved in industry sponsored and independent research in glaucoma, cataract, ocular surface disease, and retina. He has a strong passion for new technology. He was the first surgeon in Wisconsin to perform many of the minimally invasive glaucoma surgeries (MIGS), such as the iStent, Cypass, Hydrus, and Kahook Dual Blade goniotomy. He is the first to use newer in-office YAG lasers to remove visually significant floaters (YAG Vireolysis) and has helped to develop the protocol for this procedure. Recently, he was instrumental in bringing laser assisted cataract surgery to the area.

GEORGE O. WARING IV, MD, FACS
Waring Vision Institute
Dr. George O. Waring IV, MD, FACS is the founder and Medical Director of the Waring Vision Institute in Mt. Pleasant, South Carolina. Dr. Waring completed a dual degree in Economics and Ecology at Emory University in Atlanta, GA, followed by his Doctor of Medicine at the Emory University School of Medicine. He served as administrative chief resident at the State University of New York and completed his sub-specialty fellowship training in Cornea and Refractive Surgery under the world-renowned mentorship of Daniel S. Durrie, MD.

Dr. Waring has served as Associate Professor of Ophthalmology, the Director of Refractive Surgery at Medical University of South Carolina (MUSC), Storm Eye Institute and the Medical Director at Magill Vision Center from 2012-2017. Dr. Waring also serves as Adjunct Assistant Professor of Bioengineering at the College of Engineering and Science at Clemson University. Dr. Waring IV is active in clinical research and incorporates the latest advances in technology into his practice. He has performed surgery, taught new surgical procedures and delivered invited lectures on four continents. He has received numerous awards and distinctions for excellence in ophthalmology and is consistently recognized as one of the nation’s top doctors in ophthalmology. He is active in numerous other professional societies and serves as chairman of numerous professional committees. Dr. Waring also has served on over a dozen scientific advisory panels, aiding in the development of new technologies.
